International Partnerships and Study Opportunities

Jerusalem University College

Trinity's membership in Jerusalem University College (JUC) provides students with the opportunity of supplementing their campus studies with study in the Holy Land. JUC offers both undergraduate and graduate courses designed to introduce students to the Near East, to provide introduction and advanced training in the languages and literatures of that area from antiquity to the present, and to contribute to the understanding of Near Eastern cultures and peoples in other times as well as in the present. JUC's staff has been recruited from the faculties of the Hebrew University and the University of Tel Aviv.

Archaeological and geographical field trips supplement the classroom lectures. In class and on the field, students are in constant contact with specialists and with the land whose geography, archaeology, and history are being studied.

Special opportunities are also available for Trinity students to study in the Holy Land, Egypt, or other Middle Eastern sites. These study tours involve instruction from one of our professors, who leads the tour, and academic credit can be received.

Nairobi Evangelical Graduate School of Theology of Africa International University

TEDS's partnership with Nairobi Evangelical Graduate School of Theology (NEGST) in Nairobi, Kenya involves three forms of collaboration: faculty exchange, doctoral student exchange, and partnership in common scholarship projects; as well as some shared administrative services. The intent of the partnership is mutual benefit, for the fulfillment of the institutional missions, and the strengthening and maturation of both institutions.

For additional information contact the TEDS Dean's Office.

TVSEMINARY

We maintain a partnership with TVSEMINARY (https://tvseminary.com/ru_RU/). TVSEMINARY produces college courses and other training in many languages available worldwide through DVDs and the internet. Based in Russia, TVSEMINARY maintains a close affiliation with the Evangelical Free Church of America. TVSEMINARY receives permission from TEDS' faculty to video record selected live courses and then provides copies to Trinity's online team to turn into TEDS' online courses appropriate to an ATS accredited graduate program. TVSEMINARY can also use copies of the recorded courses edited into other languages to offer its own version of the courses.

CBHD Website (<https://www.cbhd.org/>)

The Center for Bioethics & Human Dignity is a bioethics research center at Trinity International University that explores the intersection of medicine, technology, and our individual and common humanity.

Established in 1994, CBHD brings distinctly Christian reflection to bear on current and emerging bioethical challenges that is both academically rigorous and broadly accessible. Such issues include end-of-life concerns, euthanasia and physician-assisted suicide, infertility and reproductive technologies, genetic interventions, biotechnologies (e.g., stem cell research, cloning, synthetic biology), emerging technologies (e.g., nanotechnology, neuroscience, artificial intelligence, robotics), and disability ethics, among many other issues. Working within a Judeo-Christian Hippocratic framework, CBHD fosters rigorous research, theological and conceptual analysis, charitable critique, and thoughtful engagement, to bring clarity to these complex issues of our day.

In short, the Center articulates Christian bioethics within the academy and provides credible, current, and comprehensive resources from a distinctly Christian perspective to assist in making wise decisions for ethical dilemmas that arise in medicine, science, and technology.

In addition to its annual summer conference, the Center has hosted a number of consultations, and regional and international conferences, and has produced a wide range of print publications and electronic resources. As an early provider of online resources, CBHD's websites host a spectrum of resources on a wide diversity of topics from introductory materials to scholarly resources for a global audience. As a leading voice in Christian bioethics, CBHD staff and fellows have appeared in a wide range of print, radio, and television media, provided congressional testimony, and are regular speakers at universities, conferences, and churches. In this regard, CBHD serves as a visible expression of TIU's emphasis on cultural engagement.

The Carl F. H. Henry Center for Theological Understanding (HCTU) is a ministry aimed at bridging the gap that all too often divides the academy and the church. The HCTU conducts a number of programs aimed at producing collaborative work between ministers, professionals, academics, and seminary faculty. The goal of this partnership is to advance Christian wisdom in all areas of life and thought—in short, to enable people to apply the knowledge of God and themselves gleaned from Scripture in the rough and tumble of life. The work of the Center is thus aimed at promoting gospel-centered thinking and living with others—from a variety of ethnic and social backgrounds—for the glory of God, the good of his church, and the welfare of the world. The Center produces a number of publications, audio lectures, and video interviews available on their website.
