

BUSINESS

The business major is designed to prepare leaders of integrity who hold fast to the Word of God. Based in the liberal arts tradition, the major is designed to help students develop skills applicable throughout their lives as they start and work in many different types of organizations including large and small businesses, nonprofits, and ministries.

Trinity's business curriculum has a bias toward practical application. This allows working students to immediately use course concepts on the job. Because most of the program's professors have worked professionally in their area of expertise, students gain a "real world" perspective on course topics. All faculty are committed Christians who will challenge students to understand how their faith can help them navigate the complexities of organizational life while honoring God and serving people.
