

PSYCHOLOGY

Through the online Psychology Major, students are not only prepared for graduate school and the workplace, but they also learn how to better understand themselves and relate with others in an effective manner. Starting with a Christ-centered curriculum, students can learn the knowledge and skills to be part of God's restorative work in a fallen world.

The online courses are a subset of the all of the Psychology Department's offerings and are chosen and sequenced to not only complete the Psychology major, but to complete an emphasis in Counseling Psychology. This emphasis has wide applications to community, church and home, but is designed to prepare students for further training in the people helping professions.

The curriculum link will show the list of courses that are offered online.

Other courses from the Psychology Department, which are not offered online, may be used to fulfill the requirements of the Psychology major and also to fulfill the requirements of the Counseling Psychology emphasis. (See the full list of courses that can be used to fulfill requirements of the major and the various emphases in the Psychology Department section of this catalog.)
