

RETAKING COURSES

A student may elect to repeat any course in which a grade of “B–” or lower is earned provided that the repeated course is taken at Trinity College in a regularly scheduled class, *excluding* guided study courses. All grades will be retained on a student’s transcript.

Retaking a course in which credit has been earned (i.e., in which the student receives a passing grade) may produce an improved grade, but will not provide additional credit. The highest grade achieved in a repeated course will count toward graduation requirements and calculation of the cumulative grade point average.

A course in which credit has been earned (i.e., in which the student receives a passing grade) may be repeated only once.
