

TRANSFER STUDENT ADMISSIONS

Transfer applicants are welcome at Trinity. Approximately one-third of the new students each year are transfers. Transfer students must complete a free application for admission and submit transcripts from each college attended. Transfer students with less than 12 college credits completed will be admitted based on their high school GPA and test scores (SAT, ACT, or CLT). (test scores for admissions are temporarily waived due to COVID-19)

Once accepted to TIU, transfer work will be evaluated. Though practicing a fairly liberal transfer policy, the University reserves the right to accept only courses that are equivalent in content, objectives, and extent to those offered by Trinity. Students may receive credit for subjects not offered at Trinity when approved by the Associate Dean and validated by the University Registrar. For further information see the Transfer Credit Policy (<http://catalog.tiu.edu/trinity-college/academic-life/policies/advanced-standing/#transfercreditpolicy>).
